

# PROTECTSHUN

## CONSTRUCTION SURFACE BARRIER TECHNICAL DATA SHEET

### GENERAL INFORMATION

PROTECTSHUN is an exclusive formulation that protects interior and exterior surfaces from stains, airborne pollutants, automobile and truck exhausts, *red mud*, volcanic dust, paint oversprays, drywall mud, cement and grout droppings, and other unwanted residues, markings and stains.

Encapsulates to keep surfaces from dusting. It is non-toxic, odorless, biodegradable and NON-HAZARDOUS.

PROTECTSHUN is effective on natural or painted surfaces, porous and non-porous surfaces, brick, tile, concrete, stucco, wood, E.I.F.S., stone, metals, granite, split face block, door and window frames, stairway risers and railings, etc. May be used on highway barriers, tunnels, walls, signs, statues, sculptures, stairways, floors.

PROTECTSHUN works as a barrier between the unwanted materials and the underlying surface. Washing the surface with water removes unwanted stains. Hot water breaks down the barrier for removal of cement products. Using a power hot water sprayer or *Protect-Off* and cold water an individual can clean 100 sq. ft. of wall surface in about 10 minutes.

### ADVANTAGES

- \*\* One Step Application
- \*\* Vapor Permeable-allows moisture to escape without damage
- \*\* No Thinning or Mixing
- \*\* Fast Drying-dries and protects in minutes.
- \*\* RETARDS THE GROWTH OF MOLD, MILDEW & ALGAE
- \*\* NO HAZARDOUS INGREDIENTS
- \*\* Estimated Coverage Rate Per Gallon-300-450s.f.

### DIRECTIONS FOR USE

PROTECTSHUN is best applied with an airless or pump up sprayer on textured surfaces or brush or roller on smooth surfaces.

One gallon covers approximately 300 to 450 sq. ft., depending upon the surface.

PROTECTSHUN is easily removed with a hot water spray of 190 degrees F at 300 to 1000 psi. *PROTECT-OFF* is an alternative means of removing *Protect-Shun* when hot water is not available.
